Understanding MIPS in 2017

As you know, the Merit-Based Incentive Payment System (MIPS) was created from the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) and became effective January 1, 2017. The MIPS program combined the PQRS, Meaningful Use and Value Based Modifier programs and added an additional category, Clinical Practice Improvement Activities, to create a single performance platform through which physicians will earn payment adjustments based on their data in the MIPS categories.

To help in general understanding of MIPS, we have provided an overview of the program in a pre-recorded, 20-minute webinar. Simply click on the link below to view the webinar.
