

More States Receive Medicaid Section 1135 Waiver Approvals

UPDATE: In our recent white paper, [CMS Provides Medicaid Section 1135 Waivers For States During COVID-19](#), we explained how CMS is actively approving state Medicaid waiver requests for flexibilities that will allow those states to focus their resources on their respective COVID-19 responses. The waivers can provide temporary relaxation on a number of Medicaid processes such as:

- Temporarily suspending prior authorization requirements;
- Extending existing authorizations for services through the end of the public health emergency;
- Modifying certain timeline requirements for state fair hearings and appeals;
- Relaxing provider enrollment requirements to allow states to more quickly enroll out-of-state or other new providers to expand access to care, and
- Relaxing public notice and submission deadlines for certain COVID-19 focused Medicaid state plan amendments, enabling states to make changes faster and ensure they can be retroactive to the beginning of the emergency.
- Temporarily waiving requirements that physicians and other health care professionals be licensed in the state in which they are providing services, so long as they have an equivalent licensing in another state.

Section 1135 waivers are effective March 1, 2020 and will end upon termination of the public health emergency, including any extensions.

The following list reflects all states that have been granted waivers as of April 6, 2020. **Those listed in blue have been added since our last white paper, mentioned above, of March 23, 2020.** Details on the individual state waivers and additional guidance and materials are published at:

There is no specific form or format that is required to submit the request for a Section 1135 waiver, but the state should clearly state the scope of the issue and the impact. States and territories may submit a Section 1135 waiver request directly to Jackie Glaze, CMS Acting Director, Medicaid & CHIP Operations Group Center for Medicaid & CHIP Services by e-mail (Jackie.Glaze@cms.hhs.gov) or letter.

Additional information and guidance are provided in the Medicaid and CHIP Disaster Response Toolkit, located at: <https://www.medicaid.gov/state-resource-center/disaster-response-toolkit/index.html>. Remaining questions can be emailed to: 1135waiver@cms.hhs.gov

APS will continue monitoring and relaying government and commercial payer COVID-19 responses and changes as they develop.
